

TST-274AP

Hidalco Digital 2000N Tensile Tester

Specification:

Input Voltage : 220V AC 50Hz.

Maximum Force : 2000 Newtons (200 Kg)

Force Resolution : 0.1 newton (10 gram)

Maximum Span : 600 mm

Displacement Resolution : 0.5mm

Display : LCD 4 Line x 20 character

Ajustable auto home position system

displays: force(Kg),Force(N),Elongation,

% elongation, initial Length,Final Length

Saves Last measurement parameters when turned off

Chrom Plated Jaw Grips

Optional RS232 interface to computer for graph plotting

Dimensions: w:45cm Length:40cm Height:122cm

Weight : 65 Kgs. Approx.

Hidalco Laboratory equipments division of MAM Electronic Engineering Limited.
